Holcombe, Entrepreneurship and Economic Growth. Scientists in every generation have endeavored—though both objective and subjective means—to gain deeper knowledge about its nature, relationship with the brain and, more recently, a possible connection to a unified quantum field theory.

Yes, and interestingly the one that worked did have a kind of property rights. Few go out and do the time-consuming work of examining the institutional structures that humans build to solve their own real-world problems. Indeed, as I have already claimed, spying, torture, mass incarceration, penalties for drug consumption, crony capitalism, and military expansion are some of the chief examples in which I share the libertarian position, even if the philosophical assumptions that undergird these positions differ.
