Thus, just as words take on meaning according to their position in a differential system of language, so sign values take on meaning according to their place in a differential system of prestige and status. The limits to this analysis are also discussed, including the extent to which Baudrillard tends to be inconsistent on key issues such as deception and simulation. Baudrillard begins his argument by noting that Simulation addition to use and exchange value, there is also "sign value, whereby commodities are valued by the way that they confer prestige and Simulation social status and power" BK,p. Also notethereferencetothegenomeproject. In this context, Baudrillard has a fascination with the Disney corporation and its products.
