In short, economics has become a rather quaint and highly guarded issues of the real world, be they political,

environmental or social. The political economy. Take the tricky entanglement between politics and economics.

## **Research - Economic Research Forum (ERF)**

Founded in Geneva, the current World Economic Forum has a mission based on the yearly meeting to that of a political as well as an economic forum. It was also encouraged to meet the growing digital environment.

The dominant economic ideology, neoliberalism, has served to entrench inequalities, undermine public service provision, and accelerate the pace of environmental breakdown. The Forum is not aligned to any political party.

Extreme weather and climate change are undermining the expectations of many businesses, requiring not only better resilience measures but also bolder action to get ahead of likely regulatory developments and negative customer reactions. What are the major effects of environmental feedbacks on economic activity and economic growth? Globalization and its global issues challenge the orthodox vision that emphasizes traditional geopolitics and the struggle for power among states, pointing to the importance of a new perspective, one which focuses its attention on a geocentric perspective in the politics of global social relations or in a new geopolitics, given the increasing importance of soft power in international relations. The objectives of the Global Forum were to provide a platform for policy experts. New York: Routledge, For over eighty years the Arab region has been deriving massive wealth from its natural resources. New York: Routledge, This fact can be explained by the fear of loss of sovereignty and autonomy, which reveals that we are living in "an international system under conservative hegemony" Viola et al.
