The Chinese Government seems to have recently introduced a number of financial reforms and budget restructuring aimed at lowering debt levels in recent times, including greater restrictions on debt-financed overseas investments, allowing some state-owned zombie firms to go insolvent, and a reduction in coal and steel industries. Zhou, X.

ThepastyearhasbeenatumultuousonefortheChinesemarket:itwashitbyane Credit booms can be triggered by a wide range of factors, for example, shocks such as positive productivity shocks, economic policies and capital flows. We can say their characteristics change over time. Regarding these points, the selected crisis management solutions were similar, including interest rate cuts, clarified commitment and asset purchase programs, but monetary easing was more aggressive during the global financial crisis.

So at the same time as China seem to be shifting the dominant global development  
Card.
