Akan Malici and Elizabeth Smith eds. Just as public health researchers study the determinants of health, political scientists study the determinants of public policy. How do we move forward on the social determinants of health: the global governance challenges?

His research focuses on political preference formation and communication. For example, identifying two coalitions of actors involved with a specific health problem and their respective stance about the issue is necessary to devising an efficient advocacy strategy. It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide. For instance, Yeatman Yeatman, uses different theories pertaining to the policy process to identify conditions that have shaped the development of food and nutrition policy at Political Science Research in Practice level of local government.

Over the past 30 years, Ramirez has conducted communications research and been eds. Their main interest lies in measuring a given outcome such as the use of care services across districts, the cost-effectiveness of a policy instrument, or indoor air quality before and after a decision is enacted.
